

Part 2

Okay, I understand the requirements. I will now proceed to create 10 complete Latvian A2 mock exams based on the structure and content of the "Valsts Valodas Prasmes Pārbaude – A2 līmenis" document you provided. Each mock exam will include all four language skills: Listening (Klausīšanās prasme), Reading (Lasītprasme), Writing (Rakstītprasme), and Speaking (Runātprasme).

I will provide Latvian transcripts for the listening tasks, describe the necessary images for writing and speaking tasks, and include correct answers or model answers with A2-level explanations as specified. Exam content will be in Latvian, with English task instructions.

After generating all 10 mock exams, I will perform a "Deep Search-style assessment" and present it in a summary table, rating each mock exam on A2-level alignment, skill balance, and practical relevance.

Let's begin with the first mock exam.
